USER STORIES ON GITAM UNIVERSITY SOFTWARE DEVELOPMENT.

1. I want the Gitam Universoty software to have an ability to display all the academic contents related that is (Admission process , courses offered ,the faculty teams and staff members and the facilities).
2. I want it to have an automatic functionality on admitting students according to the criterias provided (Merit based , first come first serve basis , Gender basis etc).
3. I want the software to give the ability to users to book for their entrance exams and preserve their slots .
4. I want the software to have a platform to keep students data and academic track(Grades ,attendance , credits required & acquired ,courses pursued in the current semester).
5. In the software I want it to have an evaluation platform where faculties can import bank of questions and the software can be randomly choosing questions to asses the student .
6. In terms of security student can either login using fingerprint method or Scan the QR code on the back of the id card to log in .
